

Over the weekend, I endeavored to download and configure the newly released version 2.2 of Project Cypress. I was able to start up the new version of the software and log in but I am running into an issue in downloading generated test data. This issue prevents us from using this new version of Cypress. The technical details of the issue are described as follows:

1) [Log into Project Cypress.](#)

TESTS	TYPE	DESCRIPTION	EXECUTIONS
There are no tests for this product. Add Test			

Error Report Indicators: passing insufficient info failing

2) [Create a new EP test.](#)

The screenshot shows the Cypress web application interface for creating a new test. The header includes the Cypress logo and version 2.2.0. The breadcrumb navigation shows 'CERTIFICATION DASHBOARD' and 'CREATE NEW TEST'. The form is titled 'Describe the test...' and contains the following fields:

- Test Name:** EP Test
- Measurement Period:** from 01/01/2012 to 12/31/2012
- Bundle Version:** Meaningful Use Stage 2 Quality (dropdown menu)
- Description:** Meaningful Use Stage 2 Quality Bundle - 2.2.0 (text area)
- Test Type:** Outpatient - to test quality measures for Eligible Professionals (EP) Inpatient - to test quality measures for Eligible Hospitals (EH)

Navigation buttons 'Back', 'Step 1 of 2', and 'Next' are visible at the top right of the form area.

Identify **at least one** quality measure to test from the list of available measures for this product...

all quality measures

Behavioral Health Adult	1	<input type="checkbox"/> all Behavioral Health Adult measures
Behavioral Health General		<input checked="" type="checkbox"/> 0004 - Initiation and Engagement of Alcohol and Other Drug Dependence Treatment
Behavioral Health Pediatric		<input type="checkbox"/> 0104 - Major Depressive Disorder (MDD): Suicide Risk Assessment
Cancer		<input type="checkbox"/> 0105 - Anti-depressant Medication Management
Core		<input type="checkbox"/> 0110 - Bipolar Disorder and Major Depression: Appraisal for alcohol or chemical substance use
Dental		<input type="checkbox"/> 0710 - Depression Remission at Twelve Months
Diabetes		<input type="checkbox"/> 0712 - Depression Utilization of the PHQ-9 Tool
Eye		<input type="checkbox"/> 1401 - Maternal Depression Screening
General Practice Adult		
General Practice Pediatric		
HIV		
Heart		
Orthopedics		
Pregnancy		

3) Access the newly created test.

The screenshot displays the Cypress Certification Dashboard. At the top left, the Cypress logo is shown with the text "Version: 2.2.0". The main header area includes "CERTIFICATION DASHBOARD" followed by a breadcrumb trail, and two buttons: "Edit Product" and "Add Test". Below this is a form area with labels for "Product:", "Version:", and "Description:". The "Product:" and "Version:" fields contain redacted information. Below the form is a table with the following structure:

INCOMPLETE TESTS	TYPE	DESCRIPTION	EXECUTIONS	
<input type="radio"/>	EP Test	EP	0	<input type="button" value="Delete"/>

At the bottom, there is a legend for "Error Report Indicators": a green circle for "passing", a grey circle for "insufficient info", and a red circle for "failing".

4) Attempt to download the QRDA test data.

Test Name: EP Test	Measurement Period: 01/01/2012 - 12/31/2012	
Test Type: EP	Description:	
Product:		Telephone:
Version:		
Bundle Version: Meaningful Use Stage 2 Quality Bundle - 2.2.0		

You must perform the following steps to execute your test:

1. Download Test Data

2. Load Test Data into your quality
measure calculator

3. Upload Results

Generate Category I tests
