

# New Attribute for Care Goal: Target Outcome (QDM-50)

**Add attribute to indicate a recorded target outcome for a goal**

- **Target Outcome**

- The expected outcome representing when the goal is met
  - e.g., for a weight loss goal, target outcome might be “25 BMI”

- Impact:**
- **Allows to test for a recorded target outcome**
  - **Allows to test the target outcome against a predefined value**

- Notes:**
- **Requested by NCQA**
