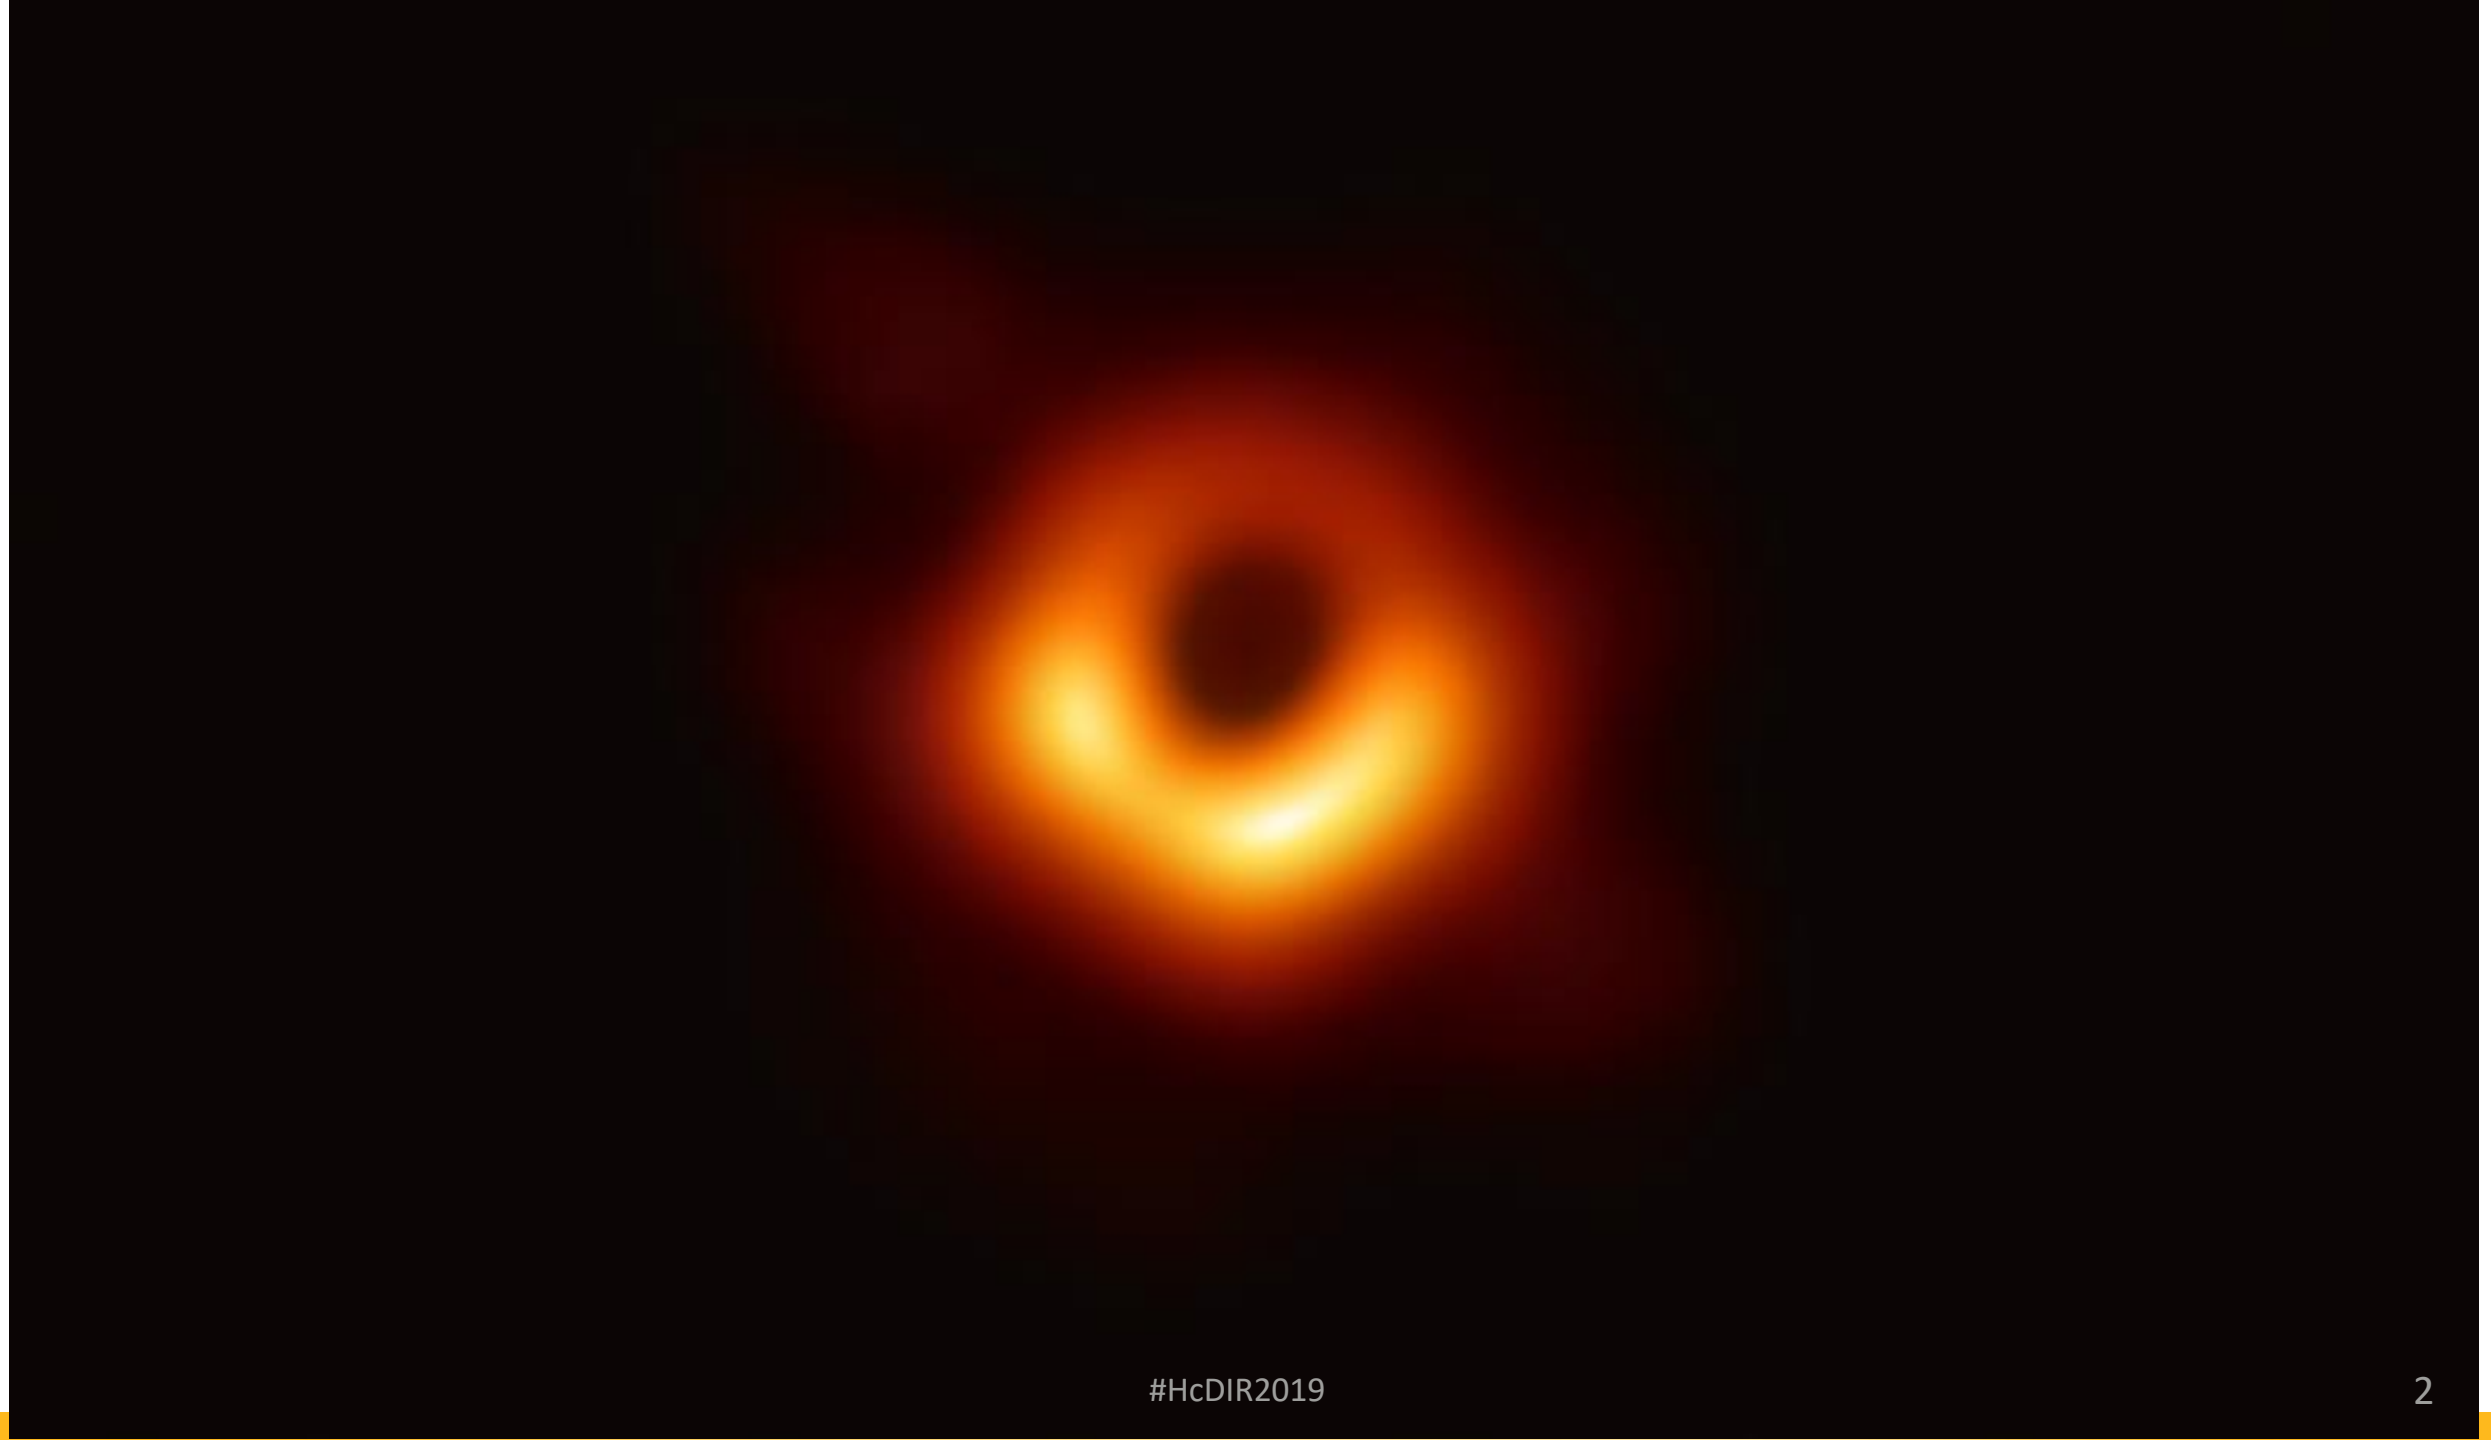
WELCOME

Goals of the workshop

Daniel Chaput
IT Specialist
Office of the National Coordinator for Health IT



Civilization advances by extending the number of important operations which we can perform without thinking about them.

Alfred North Whitehead

Goals for the next two days

- Dialogue on
  - Governance
  - Sustainability
  - Leadership
  - Legal
- Document barriers
  - actions or mitigation plans to address those barriers.

When you speak please be wise (I'll remind you again):

- Wait for a microphone. We have virtual attendees and we are recording the meeting
- Introduce yourself. Every time you speak. State name, company, affiliation if you are representing another entity
- Succinct – As in "be succinct"
- Enthusiastic – Accentuate the positive – If you state a problem please identify a root cause that can be addressed, a mitigation plan
