

The Office of the National Coordinator for
Health Information Technology

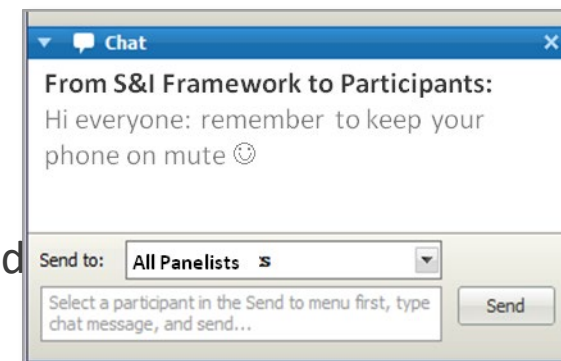

electronic Long-Term Services & Supports (eLTSS) Community Update

February 22, 2017

Meeting Etiquette

- Remember: If you are not speaking, **please keep your phone on mute**
- **Do not put your phone on hold.** If you need to take a call, hang up and dial in again when finished with your other call
 - » Hold = Elevator Music = frustrated speakers and participants
- **This meeting is being recorded**
 - » Another reason to keep your phone on mute when not speaking
- Use the **“Chat”** feature for questions, comments and items you would like the moderator or other participants to know.
 - » **Send comments to ALL PANELISTS** so they can be addressed publically in the chat, or discussed in the meeting (as appropriate).

Agenda

Topic	Presenter
Welcome	Evelyn Gallego
Recap: eLTSS Dataset Standardization Timeline	Evelyn Gallego
Status of eLTSS Standardization Activities <ul style="list-style-type: none">• Debrief on HL7 Presentations and next steps	Evelyn Gallego Irina Connelly
Opportunities for broad eLTSS Community Engagement	Evelyn Gallego
Alignment of HCBS to CMS Data Element Library (DEL) Project	Liz Palena Hall

Welcome

Recap: eLTSS Dataset Standardization Timeline

Oct-Dec 17

Jan-Feb 18

Mar-Apr 18

May-Jun 18

Jul-Aug 18

Sep 18

eLTSS Roadmap: 2017 to 2018

1. eLTSS Standard Development

Internal coordination with GA Reference Data Model Project

HL7 WG Coordination

Nov GA F2F Meeting

March 21 GA F2F Meeting

eLTSS Draft Guidance Complete

eLTSS Pilot Guidance Complete

eLTSS Whitepaper Complete

2. eLTSS Standard Testing

Pilots Identification

Pilots Test Pilot Guidance

eLTSS Pilots Complete

Pilot Findings Report Out

3. HL7 IG Ballot Development

eLTSS IG Revisions & Ballot Development

HL7 Ballot Materials Due

HL7 NIB Due

eLTSS Ballot Period (Aug 24 – Sept 24)

HL7 PSS Due

eLTSSv2 Kick-Off

HL7 Jan WGM

HL7 May WGM

HL7 Sept WGM

January HL7 Working Group Meeting Debrief

HL7 Presentation Schedule

HL7 Workgroup	Topic and/or Standards For Discussion	Schedule
CBCP	Project Status Update (non-presentation)	Mon Jan 29 Q3
CBCP	FHIR ProcedureRequest, Procedure	Tue Jan. 30 Q3
Financial Management/ Attachments	FHIR Claim, Contract	Tue Jan. 30 Q4
CDS and CQI	FHIR Activity Definition, PlanDefinition, RiskAssessment CDS Hooks?	Wed Jan 31 Q1
Structured Docs	C-CDA Care Plan Document Template C-CDA on FHIR	Wed Jan 31 Q2
FM	Follow up meeting to discuss FHIR payment resources	Wed Jan 31 Q4
Patient Care	eLTSS Project Overview for cross HL7 Care Plan Meeting	Thu Feb 1 Q1
O&O	FHIR Observation, ProcedureRequest, Device Request	Thu Feb 1 Q3
Patient Care, Patient Admin, LHS	FHIR CarePlan, CareTeam, ClinicalImpression, Condition, Procedure, Goal, Patient, Practitioner, Related Person, EpisodeOfCare C-CDA Care Plan	Thu Feb 1 Q4

Overall Summary

- **ONC and GA DCH Support Teams worked hand in hand to deliver seven separate presentations**
 - » Evelyn (ONC Support) presented background and introductory slides
 - » Irina (GA Support) presented FHIR mapping activities and posed questions on specific FHIR resources (Jack led one of the 7 presentations)
 - » Jack (GA Support), Mark (GA DCH), Jamie (ONC Support), Katiya (ONC Support) and Greg (MN) provided additional support
- **HL7 Participants demonstrated interest in this work and recognized this would be a new focus for HL7 (social services/human services); no one indicated HL7 should not be involved**
 - » Similar HL7 projects more focused on information exchange between clinical settings and community-based settings (encounter starts within clinical setting not HCBS setting)
 - » Workgroups 'open' to revising existing FHIR resources to meet eLTSS requirements

Testing Opportunities

- Several individuals expressed interest in testing the eLTSS dataset at future FHIR testing events and/or within their organizations
 - » [Point of Care Partners](#) Payer Electronic Prior Authorization Services
 - » [Epic](#): Community Connect Platform
 - » [Motive Medical Intelligence](#) : Motive Care Plans for Population health Management
 - » [Almerys](#): French Health Payer software platform
 - » CDC Bidirectional Closed Loop Referral Project
 - » Other Federal Agency Care Plan Related Projects (SAMHSA, VA)

Who owns what....HL7 Work Groups and eLTSS

eLTSS Core Dataset Data Grouping	FHIR Resource(s)	HL7 Workgroup(s)
Beneficiary Demographics (e.g. person name, emergency contact)	Patient CarePlan	Patient Administration Patient Care
Goals and Strengths (e.g. goal, step or action, strength)	Goal, CarePlan Observation	Patient Care Orders and Observations
Person Centered Planning (e.g. assessed need, service indicators, preference)	Condition Questionnaire, QuestionnaireResponse EpisodeOfCare, Practitioner Observation	Patient Care FHIR Infrastructure Patient Administration Orders and Observation
Plan Information (e.g. plan effective date)	CarePlan	Patient Care
Plan Signatures (e.g. signatures for person, service provider)	<i>Contract</i> CarePlan	Financial Management Patient Care
Risks (e.g. identified risk, risk management plan)	RiskAssessment CarePlan	Clinical Decision Support Patient Care
Service Information (e.g. service name, self-directed service indicator, start/end date, funding/cost/rate, service quantity/unit)	ServiceRequest Procedure Questionnaire, QuestionnaireResponse Location <i>Coverage, Claim</i>	Orders and Observations Patient Care FHIR Infrastructure Patient Administration Financial Management
Service Provider Information (e.g. service provider name, non-paid provider relationship)	Practitioner, Patient, RelatedPerson, Organization	Patient Administration

Bold text indicates resources and work groups that we are actively working with regarding potential changes to FHIR resources based on the corresponding eLTSS Core Dataset elements

Italicized text indicates currently mapped resources that may no longer be necessary depending on the outcome of HL7 tracker requests for other resources and work groups

Key Takeaways: CBCP

- Team had to elaborate on difference between “patient” and “person”
- Team clarified why FHIR HealthcareService Resource not applicable to eLTSS
- CBCP participants questioned mapping to FHIR Procedure Resource—did not feel it reflected scope of what a service is. Unclear whether it made more sense to revise existing resource or create a new ‘Service’ Resource
 - » Suggested ONC/GA team discuss in more detail with Patient Care WG before creating new resource
 - » Encouraged team to prototype a model of what this ideal resource could look like and share this with Patient Care
- Suggested team look at Structured Data Capture Profile that is applicable to FHIR RiskAssessment Resource and EpisodeOfCare Resource
- Suggested Plan Signature data elements map to FHIR Contract Resource

Key Takeaways: Attachments & FM

- Much discussion on use of FHIR Claim and Contract Resources; no consensus on whether Claim is appropriate to use for specific eLTSS financial data elements
 - » Claim and Contract are best fit of existing FHIR Resources; gaps may be addressed through revision to other Resources (e.g. CarePlan, Procedure and ServiceRequest)
- Suggested we meet with Paul Knapp about mapping from Contract to CarePlan vs. CarePlan to Contract
- Advised to connect with Dave Walsh from CMS MITAC

Key Takeaways: CDS/CQI

- Very agreeable on making changes to FHIR RiskAssessment Resource to meet eLTSS requirements
 - » Current resource is very qualitative and no fields for text-based data; this is goal for eLTSS but need fields to be able to capture non-coded text
 - » Requested ONC/GA team submit comments on FHIR tracker
- Confirmed that ActivityDefinition and PlannedDefinition are template resources and should not hold data specific to patient/person

Key Takeaways: Structured Documents

- No questions posed to SD; presentation was for general awareness and to confirm eLTSS dataset is being mapped to C-CDA Care Plan Document Template
- Workgroup favored any HL7 guidance that will be developed to reference or point to C-CDA versus creating new document template or sections
 - » Request we use same approach as has been done for the C-CDA Nutrition Supplemental Implementation Guide
 - » ONC/GA team believe developing informal guidance would be more valuable than developing complex supplemental guidance for balloting

Key Takeaways: O&O

- Confirmed that ProcedureRequest has been named to ServiceRequest and thereby more fitting for eLTSS
- Agreeable to make changes to ServiceRequest to meet 'location', 'funding source' and 'unit cost' requirements for eLTSS dataset
 - » Requested ONC/GA team submit comment on FHIR tracker and join the O&O WG meeting on March 4, 2018
 - » Updates will be included in May Ballot cycle
- Discussion on hosting a catalog or directory of services that the resource can point to
 - » Irina noted that every state pays out services differently but may be good to highlight this opportunity for efficiencies; Victor noted this should be included in authorization documentation
- Participants agreed that Observation Resource is best to capture preference

Key Takeaways: LHS, PC and PA

- Long discussion on use of Procedure Resource for eLTSS
 - » Agreed that multiple services can be delivered within one encounter
 - » Achieved consensus on updating definition of Procedure Resource to reflect that the 'action' can be made 'on' or 'for' an individual. This would support services such as 'walking the dog' that are done FOR the individual, not ON the individual. PC Co-chair added this request to FHIR Tracker
 - » PC requested ONC/GA team participate in weekly PC FHIR meetings (Thurs. 5pm ET)
 - » PC requested GA share the eLTSS mapping document
- LHS developing Care Team DAM that includes eLTSS Use Case. Will be building model of a whole person care team which is made up of multiple component teams or sub-teams

Next Steps: HL7 Work Group Trackers

Community Based Care and Privacy

Actions Summary	We will track the status of our PSS, and will provide periodic project updates
Meeting Time	Tuesdays 12pm-1pm
Submitted Trackers	none

Patient Care

Actions Summary	We will create trackers for the Procedure change requests - will also coordinate with ServiceRequest
Meeting Time	Thursdays 5pm - 6:30pm
Submitted Trackers	[#15127] Summary: Update Procedure scope, examples, and category for eLTSS

Next Steps: HL7 Work Group Trackers

Orders and Observations

Actions Summary	Per O&O request, we will engage them after March 4th. We will need to create trackers and discuss changes to ServiceRequest. Will also coordinate to ensure alignment with changes to Procedure.
Meeting Time	Tuesdays 2pm-3pm
Submitted Trackers	none

Clinical Decision Support

Actions Summary	Making sure RiskAssessment can hold LTSS Service Plans risk data and risk management plan info
Meeting Time	Wednesdays 12pm - 1pm
Submitted Trackers	none

FHIR Connectathon Care Plan Track: January 27 – 28, 2018

Greg Linden, Principal, Linden Tech Advisors LLC

eLTSS FHIR Testing Approach

- Testing methodology
 - » The intent was to test/validate the modeling assumptions of eLTSS in FHIR
 - » The clinFHIR tool was used to add, modify and edit all of the Resources called out in the GA eLTSS Element Mapping spreadsheet for a test patient on a public server
 - » Modifications and relation of resources followed the specifications called out in the GA eLTSS Element Mapping spreadsheet (Rev. 01/25/18)
 - » Testing conducted by Greg Linden

FHIR Resources Used

- **ActivityDefinition (2)**
- **CarePlan**
- **CareTeam**
- **Claim**
- **ClinicalImpression**
- **Condition**
- **Contract**
- **Goal**
- **Location**
- **Observation (4)**
- **Organization (2)**
- **Patient**
- **PlanDefinition (2)**
- **Practitioner (4)**
- **Questionnaire (2)**
- **QuestionnaireResponse (2)**
- **RelatedPerson (2)**

Testing Results

- **Three categories of Test Results**

- » **Success as intended:** Resources and parameters were entered into clinFHIR exactly as defined in the spreadsheet
- » **Success with notes:** The intent of the spreadsheet spec was validated against the FHIR spec but wasn't not able to be fully implemented in the test patient due to limitations of the current release of clinFHIR
- » **Alternative approach and findings:** There were alternate means to accomplish what was proposed in the spreadsheet, or related findings in the FHIR spec were cited

- **Testing Result Summary**

- » Success as intended: 20
- » Success with notes: 34
- » Alternative approach and findings: 2
- » Total elements tested: 56

- **Conclusions**

- » GA mapping was effective and on-point, and followed the FHIR spec very closely; successfully implemented 54 of 56 elements, with options noted for two elements
- » This was a point-in-time test; HL7 meeting identified new resources and approaches

eLTSS Engagement

How can broader eLTSS Community engage?

- Participate in monthly eLTSS Community Update Meetings
- Follow engagement with HL7 CBCP Workgroup:
 - » <https://www.hl7.org/Special/committees/homehealth/index.cfm>
 - » Weekly calls scheduled Tuesdays 12 to 1pm ET
 - » GTRI will provide periodic brief status updates
- Sign up to pilot draft eLTSS standardized materials
 - » Contact: Jamie Parker jamie.parker@carradora.com

eLTSS Initiative: Project Team Leads

- **ONC Leadership**
 - » Elizabeth Palena-Hall (elizabeth.palenahall@hhs.gov)
 - » Caroline Coy (caroline.coy@hhs.gov)
- **CMS Leadership**
 - » Kerry Lida (Kerry.Lida@cms.hhs.gov)
- **Initiative Coordinator**
 - » Evelyn Gallego-Haag (evelyn.gallego@emiadvisors.net)
- **Project Management**
 - » Lynette Elliott (lynette.elliott@esacinc.com)
- **Use Case & Functional Requirements Development**
 - » Becky Angeles (becky.angeles@esacinc.com)
- **Pilots Management**
 - » Jamie Parker (jamie.parker@carradora.com)

CMS Data Element Library (DEL)

IMPACT Act of 2014

- Bi-partisan bill passed on September 18, 2014, and signed into law October 6, 2014
- **The Act requires the submission of standardized patient assessment data elements by:**
 - Long-Term Care Hospitals (LTCHs): LCDS
 - Skilled Nursing Facilities (SNFs): MDS
 - Home Health Agencies (HHAs): OASIS
 - Inpatient Rehabilitation Facilities (IRFs): IRF-PAI
- **The Act specifies that data “... be standardized and interoperable so as to allow for the exchange of such data among such post-acute care providers and other providers and the use by such providers of such data that has been so exchanged, including by using common standards and definitions in order to provide access to longitudinal information for such providers to facilitate coordinated care and improved Medicare beneficiary outcomes...”.**

Data Element Standardization

- **Achieving Standardization (i.e., Alignment) of Clinically Relevant Data Elements to Improve Care and Communication for Individuals Across the Continuum**
 - Enables shared understanding and use of clinical information;
 - Enables the re-use of data elements (e.g., for transitions of care, care planning, referrals, decision support, quality measurement, payment reform, etc.);
 - Supports the exchange of patient assessment data across providers;
 - Influences and supports CMS and industry efforts to advance interoperable health information exchange (HIE) and care coordination in disparate settings.

The CMS Data Element Library (DEL)

- Centralized and authoritative resource for CMS's required Long Term and Post- Acute Care (LTPAC) assessment instrument data elements (e.g., questions and their response codes) and their associated mappings to HIT standards.
- DEL goals include:
 - Facilitating the maintenance of uniformity across CMS assessments and quality measures
 - Serving as an authoritative resource for LTPAC assessment data elements
 - Promoting the sharing of electronic LTPAC assessment data sets and information standards
 - Influencing and supporting industry efforts to promote EHR interoperability and care coordination

How is the DEL Useful for HCBS?

- Publically available database of potential assessment questions and responses
 - Contains the Functional Assessment Standardized Items (FASI)
 - States may reuse the standardized data elements from other areas
 - Most items have been previously tested for feasibility and reliability in PAC settings

A1000. Race/Ethnicity	
↓ Check all that apply	
<input type="checkbox"/>	A. American Indian or Alaska Native
<input type="checkbox"/>	B. Asian
<input type="checkbox"/>	C. Black or African American
<input type="checkbox"/>	D. Hispanic or Latino
<input type="checkbox"/>	E. Native Hawaiian or Other Pacific Islander
<input type="checkbox"/>	F. White

BB0700. Expression of Ideas and Wants (3-day assessment period)	
Enter Code <input type="checkbox"/>	Expression of ideas and wants (consider both verbal and non-verbal expression and excluding language barriers) 4. Expresses complex messages without difficulty and with speech that is clear and easy to understand 3. Exhibits some difficulty with expressing needs and ideas (e.g., some words or finishing thoughts) or speech is not clear 2. Frequently exhibits difficulty with expressing needs and ideas 1. Rarely/Never expresses self or speech is very difficult to understand
BB0800. Understanding Verbal and Non-Verbal Content (3-day assessment period)	
Enter Code <input type="checkbox"/>	Understanding Verbal and Non-Verbal Content (with hearing aid or device, if used, and excluding language barriers) 4. Understands: Clear comprehension without cues or repetitions 3. Usually Understands: Understands most conversations, but misses some part/intent of message. Requires cues at times to understand 2. Sometimes Understands: Understands only basic conversations or simple, direct phrases. Frequently requires cues to understand 1. Rarely/Never Understands
