Notes:

- Welcome to the team, Danielle Friend!
- The team is ready to start drafting the Pilot Model, pending additional input and guidance.

Next Steps:

- Follow-up with Stephen on NODE – Given the focus of NODE Health to be focused on clinical outcomes studies, does it make sense to plug them into the broader FAST team vs. the Pilots Tiger Team specifically? (Tracy)
- Follow-up with Stephen on Expectations and Deadlines – The team would like to gain insights into the deliverables and deadlines for the pilot model, considering the requirements of the other tiger teams. (Tracy)
- Pilot Model - Wes and Dennis to meet offline, potentially with Patrick Murta, to put together strawman of pilot model. (Dennis and Wes + anyone else who is interested)
- Bios - Please send Tracy your bios for the confluence page by the end of this week. (Wes, Danielle, Dustin, Brett, Luis, Nicole)

Next meeting: Tuesday, May 7, 2019, 3:30 – 4:00 p.m. ET
