#HcDIR2019

Exercise 1

Disclaimer: The content in this space is DRAFT and will change in the next coming weeks once recordings have been listened to.

Questions:

1. What data is your highest priority to be able to obtain from a nationwide healthcare directory?
2. Of that high-priority data, what is the most important to have verified?

To discuss the
Validated Healthcare
Directory
implementation Guide
visit the Zulip Stream [here](#).

INSTRUCTIONS

Please submit your responses via the chat window on the virtual webinar. Make sure you provide the Flip Chart your response should be added to "Data or Functions".

- The first question we will upload the ideas written on the in-person flip boards below.
- The second question will be addressed together as a group.

FLIP CHARTS

(The below "flip chart spaces" will be uploaded manually from inside the room.)

DATA

Provider Credentials

Provider/Org Affiliations

Org/Org Relationships

Provider Plan Participation

Provider Location

Provider Endpoints

Endpoint Functions

Validation

Provider Availability- Taking new patients?

Taking points- product line

**Data verified at the highest level of cascade
(highest priority data at the top)**

Post office data accuracy

**Providers need "skin in the game" for
accuracy**

Delegates

FUNCTIONS

Interoperability (3/4 of participants agree)

Credentialing (1/2 of participants agree)

Consumer Directory (3/4 of participants agree)

Compliance (regulatory) (3/4 of participants agree)

Communication (Human to human auto notifications) (1/2 of participant agree)

Referrals/Connect patient with resources (1/4 of participants agree)

Feedback (getting corrections back to source) (1/2 of participants agree)

Navigation (1/4 of participants agree)

Validation (100% of participants agree)

Reimbursing providers appropriately (1/4 of participants agree)

Network Development (1/4 of participants agree of participants agree)

Public health outbreaks (1/4 of participants agree)

Ability for the providers to authenticate (Affirming Identity/ID proofing) (3/4 of participants agree)
