ONC FAST Exchange Tiger Team: Proposed Solutions, Challenges, and Work Remaining

December 19, 2019 at 12:00PM - 2:00PM ET.

Join the FHIR at Scale Taskforce (*FAST*) on December 19, 2019 from 12:00 PM to 2:00 PM for an update from the Exchange Tiger Team. They have been working hard to address technical barriers related to FHIR-based data exchange, including:

1. How do we consistently and reliably exchange clinical data across a hybrid system where partners may use one or more intermediaries for technical and business operations?
2. How do we standardize metadata exchange?

This session will cover this proposed solution:

- Reliable Routing with Metadata Across Intermediaries

In addition, this session will highlight any gaps and challenges which may impact these possible solutions and outline the remaining work to be done.

If you were not able to join the FAST 101 Information Session last month, you can get up to speed by watching the recorded session or reviewing the presentation slide deck at [FAST 101 Informational Webinar](#). All who are interested in the work of FAST are encouraged to join the Technical Learning Community (TLC) and the LinkedIn Group for regular updates.
