

Notes from the March 20, 2020 call

Short call. Still no communications from HIMSS regarding online demo opportunities. Several volunteers will look at various opportunities to demo to interested groups (starting with VIP tour list).

Work on IHE profile for 360XL (L is for Long-term care). One thing we hadn't noted before is the LOINC code to use for submission set content type (and in the HL7 v2 message, and in Document Entry document class). Appropriate codes seem to be LOINC 85199-8 and LOINC 85187-3. An older code, 34140-4, seems to be discontinued.
