

Notes from the April 3, 2020 call

Update on demo opportunities:

- DirectTrust Clinicians Steering Workgroup - Noon Eastern April 14 meeting. They plan to also invite the Physician EHR Coalition ([PEHRC](#)). DirectTrust can also provide the EMDI questionnaire to attendants.
- [LeadingAge State Technology Initiatives](#) - May 5th is a possible date. Epic to confirm participation.
- The Annual DirectTrust Summit in June - there is a 360X demo already planned, not the same as the HIMSS demo.
- HIMSS LTPAC committee - very interested, they will get back to us with possible dates.
- The VA - They are looking at May dates, they will invite Cerner, and they want to invite the DoD.
- The CMS EMDI Initiative (which is sponsoring the first production 360X pilot) are working on a June date.
- NCQA is interested in a presentation (not demo).

Assuming that the April 14 demo will go ahead, we plan to use next week's call on Friday, April 10 (10:30 - 12:30 Eastern) and Monday, April 13 (3-4 pm Eastern) for rehearsal.

Vassil to send e-mail when this is reflected in the minutes.
