Core Capability		Identity	Directory /Versioning /Scale	Testing /Certification	Exchange	Security	Pilot	(Bold indicates primary assignment)
CC1	End Point Discovery		1					1. End Point Discovery 3. Version Identification 5. Patient Information Request, Provider Request to Plan 6. Patient Information Request, Plan Request to Provider 7. Documentation Templates and Rules 8. Event Based Alerts 9. Quality Reporting 10. Push Patient Information 11. Shared Care Planning 12. Referrals/Consults 13. Care Team Coordination 14. Scheduling
CC2.a	Authentication	1				1		1. End Point Discovery 2. Authentication /Authorization 3. Version Identification 4. Patient/Provider Identification 5. Patient Information Request, Provider Request to Plan 6. Patient Information Request, Plan Request to Provider 7. Documentation Templates and Rules 8. Event Based Alerts 9. Quality Reporting 10. Push Patient Information 11. Shared Care Planning 12. Referrals/Consults 13. Care Team Coordination 14. Scheduling

CC2.b	Authorization	1				1	1. End Point Discovery 2. Authentication /Authorization 3. Version Identification 4. Patient/Provider Identification 5. Patient Information Request, Provider Request to Plan 6. Patient Information Request, Plan Request to Provider 7. Documentation Templates and Rules 8. Event Based Alerts 9. Quality Reporting 10. Push Patient Information 11. Shared Care Planning 12. Referrals/Consults 13. Care Team Coordination 14. Scheduling
CC3	Resource Version Identification		1		1		3. Version Identification 5. Patient Information Request, Provider Request to Plan 6. Patient Information Request, Plan Request to Provider 7. Documentation Templates and Rules 8. Event Based Alerts 9. Quality Reporting 10. Push Patient Information 11. Shared Care Planning 12. Referrals/Consults 13. Care Team Coordination 14. Scheduling
CC4	Reliable Patient Identity Management	1				1	2. Authentication /Authorization 4. Patient/Provider Identification 5. Patient Information Request, Provider Request to Plan 6. Patient Information Request, Plan Request to Provider 7. Documentation Templates and Rules 8. Event Based Alerts 9. Quality Reporting 10. Push Patient Information 11. Shared Care Planning 12. Referrals/Consults 13. Care Team Coordination 14. Scheduling
CC5	Data Provenance				1		5. Patient Information Request, Provider Request to Plan 6. Patient Information Request, Plan Request to Provider 7. Documentation Templates and Rules 8. Event Based Alerts 9. Quality Reporting 10. Push Patient Information 11. Shared Care Planning 12. Referrals/Consults 13. Care Team Coordination

CC6	Reliable Provider Identity Management	1			1	1	2. Authentication /Authorization 4. Patient/Provider Identification 5. Patient Information Request, Provider Request to Plan 6. Patient Information Request, Plan Request to Provider 7. Documentation Templates and Rules 8. Event Based Alerts 9. Quality Reporting 10. Push Patient Information 11. Shared Care Planning 12. Referrals/Consults 13. Care Team Coordination 14. Scheduling
CC7	Publication & Subscription for Events, Messages, & Topics				1		1. End Point Discovery 2. Authentication /Authorization 3. Version Identification 4. Patient/Provider Identification 7. Documentation Templates and Rules 8. Event Based Alerts 9. Quality Reporting 10. Push Patient Information 11. Shared Care Planning
CC8	Guaranteed Message Delivery		1				1. End Point Discovery 2. Authentication /Authorization 3. Version Identification 8. Event Based Alerts 9. Quality Reporting 10. Push Patient Information 11. Shared Care Planning
CC9	Role & Context Identification	1				1	2. Authentication /Authorization 4. Patient/Provider Identification 5. Patient Information Request, Provider Request to Plan 6. Patient Information Request, Plan Request to Provider 8. Event Based Alerts 9. Quality Reporting 10. Push Patient Information 11. Shared Care Planning 12. Referrals/Consults 13. Care Team Coordination 14. Scheduling
CC10	Readiness Credential			1			1. End Point Discovery 2. Authentication /Authorization 3. Version Identification 4. Patient/Provider Identification 5. Patient Information Request, Provider Request to Plan 6. Patient Information Request, Plan Request to Provider 7. Documentation Templates and Rules 8. Event Based Alerts 9. Quality Reporting 10. Push Patient Information 11. Shared Care Planning 12. Referrals/Consults 13. Care Team Coordination 14. Scheduling

CC11	Standard-Based Endpoint Access		1				1. End Point Discovery 2. Authentication /Authorization 3. Version Identification 4. Patient/Provider Identification 5. Patient Information Request, Provider Request to Plan 6. Patient Information Request, Plan Request to Provider 7. Documentation Templates and Rules 8. Event Based Alerts 9. Quality Reporting 10. Push Patient Information 11. Shared Care Planning 12. Referrals/Consults 13. Care Team Coordination 14. Scheduling
CC12	Synchronous Transaction Support				1		5. Patient Information Request, Provider Request to Plan 6. Patient Information Request, Plan Request to Provider 7. Documentation Templates and Rules 8. Event Based Alerts 9. Quality Reporting 10. Push Patient Information 11. Shared Care Planning 12. Referrals/Consults 13. Care Team Coordination 14. Scheduling
CC13	Asynchronous Transaction Support				1		1. End Point Discovery 2. Authentication /Authorization 3. Version Identification 8. Event Based Alerts 9. Quality Reporting 10. Push Patient Information 11. Shared Care Planning 12. Referrals/Consults 13. Care Team Coordination 14. Scheduling
CC14	Reliable Payer Identification				1		1. End Point Discovery 3. Version Identification 4. Patient/Provider Identification 5. Patient Information Request, Provider Request to Plan 6. Patient Information Request, Plan Request to Provider 7. Documentation Templates and Rules 8. Event Based Alerts 9. Quality Reporting 10. Push Patient Information 11. Shared Care Planning 12. Referrals/Consults 13. Care Team Coordination 14. Scheduling
