

DAF Use Case 1- Local Data Access User Story Sub Workgroup

Local Data Access User Story Sub Workgroup Announcements

Please note all SWG discussions have now concluded and future discussions will take place in the All Hands call, which occur every Wednesday from 12:00 PM-1:00 PM EST.

Local Data Access User Story Sub Workgroup Purpose, Goals & Objectives

Purpose:

The purpose of this sub-work group is to discuss the **draft** Local Data Access User Stories that articulate the real world challenges and the business need to solve the problem. The draft User Stories posted on the Use Case 1 Local Data Access User Stories page are just a starting point, and we look to the community for additional feedback and other relevant User Stories. The information developed in this group will then be presented and discussed with the larger community on Wednesdays from 12:00 PM -1:00 PM (EST) during the “All Hands” call.

Goal:

1. The goal of the Local Data Access User Story sub workgroup is to develop and prioritize real world examples best capturing the need for local data access.

Objectives:

1. Identify and prioritize user stories to support LDAF
2. Present final and selected user stories to the larger DAF community
