

eLTSS Pilot Interest Survey

The Pilot Phase of eLTSS is now complete. Thank you to all those who participated!

The electronic Long-Term Services and Supports (eLTSS) Initiative is seeking information from organizations who may be interested in participating as eLTSS Pilots. Pilot organizations are willing to serve as a Pilot Site and as team members in the Pilots Work Group (WG). The Pilots WG organizes and guides the deployment of Pilot projects that will test the suitability of the initiative specifications, standards, and technology in real-world settings.

eLTSS anticipates that potential Pilot organizations will identify with one or more of the following roles: 1) beneficiary/beneficiary advocate, 2) eligibility determination form submitter, 3) eLTSS Plan Developer, 4) Payer, 5) state eligibility determination system, 6) payer system, 7) beneficiary system or LTSS/Case Management Information, 8) and other IT system (EHR, HIE, legal etc.).

The responses to the Pilot Interest Survey can be viewed [here](#). Thank you!
