Testing and Certification Tiger Team

This Tiger Team will focus on specification for testing and certification of the requirements defined for identity, security, Endpoint discovery, scaling and exchange process. Our anticipated timeline is August 2018 - June 2020.

Tiger Team Deliverables

- Describe the minimum level of conformance required to participate in a scaled FHIR ecosystem.
- Testing specifications that can be used by a certification organization or individual organization to assure compliance with the work of the FHIR Ecosystem Task Force.
- Extending current FHIR work to proofs of concepts that test for scale and conformance across multiple stakeholders using multiple FHIR artifacts that are at various stages of maturity.

Skills and Experience

Members for this Tiger Team should demonstrate:

- **Experience in security, identity, performance, and clinical data exchange testing.**
- **Understanding of and experience in the implementation of testing and certification programs**

Team Leads		
Lee Barrett	Executive Director, CEO	EHNAC
Sandy Vance	Director Healthcare Interoperability	AEGIS
Tiger Team Members		
Gary Beatty		
Bill Braithwaite		Retired
Drew Hannah	Directory of Business Development, US	Smile CDR
Durwin Day	Health Information Manager	Health Care Service Corporation
Sagy Pundak Mintz	Vice President Development – New Product Innovation	Allscripts
Debra Strickland	Director of implementations and client services	Conduent
Glenn Janzen	IT Specialist/Systems Analyst	ONC
Timothy Benett		Drummond Group
Dan Kazazz		Secureexsolutions
