

# Notes from the January 8, 2021 call

Happy New Year!

We are continuing our work on the two main areas from last year: LTPAC transfer to ED, and Social Determinants of Health (SDoH) interactions with extra-clinical providers.

LTPAC transfers to ED:

- Review list of data items from Partners
- Next steps to be taken: start documentation in Confluence for
  - transition flows
  - data elements (see document)
  - any HL7 message contents

We reviewed the testing schedule for the week of 1/18

Discussion on plans for Connectathon, and HIMSS Interoperability Showcase.

For next week - look at the Gravity Project HL7 ballot:
