Meeting Procedures

Please note the following meeting procedures before dialing into the audio conference or signing into the web conference for the Multidisciplinary ONC Work Group meetings:

- Please sign into the WebEx using your name and affiliation or record your name on the conference line after the prompt.
- If you are not signing on to the WebEx, signing on anonymously, or did not record your name on the conference line, please email Donaldson-Katherine@norc.org to let us know you are on the phone.
- Given the large number of individuals on the call we will mute all lines during the presentation portion of the meeting.
 - You may use the Chat function to submit questions throughout the presentation. When using the Chat function please send your questions to the host/presenter **Katherine Donaldson**.
 - After the presentation, there will be a discussion period, during which we will answer questions that we received via Chat, and open the line for discussion and additional questions.
 - If you are not signed into the WebEx, you may email any comments or questions to Donaldson-Katherine@norc.org if you are unable to ask them during the meeting.
