## 2017 Interoperability in Action Webinar Series #2

## About ONC Tech Lab's Inaugural Interoperability in Action Day

This half-day webinar focused on the current state of interoperability of social determinants of health (SDOH) screening and assessment tools in care delivery, and described their role in newer care and payment models. Participants described efforts and available resources to increase the interoperability of SDOH tools, concepts and data elements.

Participants came away from the event with a better understanding of the principles of interoperability and how to leverage health IT to support the use of SDOH in clinical practice and to improve clinical decision support and quality measurement, care coordination, and population health management.

Date: Wednesday, July 26, 2017

## Interoperability in Action Day Agenda

## Advancing Interoperable Social Determinants of Health (SDOH)

Session Title	
<ul> <li>AI Taylor, MD, Office of the National Coordinator for Health Information Technology</li> </ul>	
The Value of Capturing SDOH in Clinical Care	
This session focuses on drivers for the increased collection of patients' SDOH data at the point of care and presents the most commonly used screening tools and approaches to addressing patients' SDOH needs.	IAD2-ONC-SIREN- Fichtenberg 7-26- 2017.pptx
Caroline Fichtenberg, PhD, Social Intervention Research and Evaluation Network (SIREN)  Making the Case for Interoperable SDOH	
This session describes the increasing need and value of representing patient-reported and community-level SDOH data using common clinical vocabulary standards; it will explore the ways in which interoperable SDOH data can be used to support health care, including clinical decision support, quality improvement and measurement, case management and population health.	
Dan Vreeman, PT, DPT, Regenstrief Center for Biomedical Informatics	

Health IT Enabled SDOH Exemplars This session will highlight how some organizations have implemented solutions that use structured data and integration into EHRs and other health information technology. It will also explore implementation challenges and opportunities that lie ahead.	IAD2-Socially Determined ONC Webinar
<ul> <li>Matt Lambert, MD, Anthony Beverina, Socially Determined</li> <li>Michelle Proser, PhD, National Association of Community Health Centers</li> <li>Rosy Chang Weir, PhD, Association of Asian Pacific Community Health Organizations</li> <li>Hilary Placzek, PhD, MPH, Health Leads Inc.</li> </ul>	Slides_July2017.ppt IAD2-ONC-Placzek- Health Leads July 2017.pptx
Rachel Gold, PhD, MPH, OCHIN	IAD2-ONC-SDH- Gold-OCHIN- July2017.ppt
Building a Playbook	
This session will assist screening tool developers and users alike as they begin the process of identifying and creating the needed structured vocabularies to appropriately represent SDOH domains, questions and components and will discuss how to integrate these new data elements into their EHR systems.	IAD2-ONC-SDOH- Terminology-Rob McClure.PPTX
<ol> <li>Am I using the right screening tool?</li> <li>Who owns these tools? Are there intellectual property issues with their use?</li> <li>Which clinical vocabulary should I use?</li> <li>How do I get new codes?</li> <li>How do I integrate them into my EHR?</li> </ol>	IAD2-Supporting the Playbook-NLM Resources_Lang7- 26-17.pptx IAD2-SDOH-
Scheduled Speakers	Regenstrief-Cullen July 2017.pptx
<ul> <li>Rob McClure, MD, ONC/NLM consultant on terminology/vocabulary</li> <li>Julia Skapik, MD, ONC</li> <li>Lisa Lang National Library of Medicine</li> <li>Theresa Cullen, MD, Regenstrief Institute</li> </ul>	
Next Steps	
This workshop is meant to be the beginning for the growing community of users and developers of SDOH, and this early work raises as many questions as it answers:	
<ol> <li>How can this newly integrated information be leveraged? C-CDA, FHIR?</li> <li>How do I use these data for CDS/CQM/QI?</li> <li>How will these new codes be organized, stored, made available?</li> <li>Resources for communication (SIREN listserv etc.)?</li> <li>What are future innovation opportunities for stakeholder?</li> </ol>	
6. What does ONC offer for stakeholder opportunities and resources?	
Scheduled Speakers	
<ul> <li>Al Taylor, MD, ONC</li> <li>Caroline Fichtenberg, PhD, SIREN</li> </ul>
