## Prescription Drug Monitoring Program (PDMP) Homepage

## Meeting Schedule

### Introduction

The purpose of this initiative is to bring together the PDMP and health IT system communities to standardize the data format, transport, and security protocols to exchange patient controlled substance history information between PDMPs and health IT systems. Doing so would enable health care professionals to make more informed clinical decisions through more timely, effective and convenient access to PDMP data in an effort to reduce prescription drug misuse and overdose in the United States.

### Announcements

- **The PDMP Closing Ceremony was held on Tuesday, September 20th, 2016 at 12pm ET. Click here to [view the recording](#).**

If you have any questions, comments, or suggestions, please email Saurav Chowdhury ([saurav.chowdhury@esacinc.com](mailto:saurav.chowdhury@esacinc.com)).

### Milestone Artifacts

Note: the Implementation Guide (IG) developed under this initiative is not an official standard, but rather a reference artifact that was developed for the purposes of this initiative. This IG has not been balloted or endorsed by any SDO, and has not been updated since the completion of this initiative. However, the NCPDP SCRIPT piece of this IG was included in the latest release of NCPDP SCRIPT and is available through NCPDP.
