

Pilots Tiger Team

This Tiger Team will identify the pilot models, technology, and participants needed to demonstrate the efficacy of the documentation and approaches created by other tiger teams.

Tiger Team Deliverables

- Develop a pilot project plan.
 - Document pilot models.
 - Develop efficacy measurements and approach documentation.
 - Coordinate, conduct, and/or share demonstration projects between EHR/HIE and payer end points to pilot implementations developed by other tiger teams.
-

Skills and Experience

- Creating and managing pilots with payers and providers.
 - Engaging payers, providers, and other stakeholders as it relates to pilots.
-
