Online testing on Tuesday, April 10, and Wednesday, April 11, 2018

Current participants in the 360X project are planning a testing session to establish connectivity, and prepare for the second stage of testing on April 17th.

When: 10 am Eastern Time to 5 pm Eastern time (times may be slotted for particular testing, but we plan to start all together).

Tentative schedule

10 am Eastern/ 9 am Central/ 7 am Pacific: Initial call-in and confirming the schedule

1 pm Eastern/ Noon Central 10 am Pacific: 1st check-in call, status updates

4:30 pm Eastern/ 3:30 pm Central/ 1:30 Pacific: 2nd check-in call. status updates

How: **For Webnesday, April 11 follow up,** we will use this Webex link to meet. (Meeting Number is 998 444 677, if prompted. Audio Connection: 202.774.2300, Access Code: 998 444 677)

What: We will test connectivity with both XDM/SMTP and XDR/SOAP. The goal is to send and receive a 360X message, as the initial step for the content testing as described in Appendix D of the 360X Implementation Guide. The technical information for the participants is available in a Google sheet.
